Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children.

Description: Roxy's Story is the story of a young girl who falls into a coma after being hit by a van, and has the ability to manipulate and communicate with the real world. Her story begins at a wedding, where she is hit by the wedding car. When Roxy wakes up in the hospital, she is given a doll with her name on it called "Roxy," and told by her mother that the doll was made by a doll factory called "Sylph's." When Roxy is home, she talks to the doll and sees the therapist Othar as a girl she had met in the doll factory, who tells her that "the girl with the gold hair" is the one who is supposed to give Roxy a gift from Sylph. She goes to the orphanage with the doll to give it to her. The orphanage is located underground and has a safe room, where Othar works and is charged with the care of the orphans. There she encounters a boy named Leo, who shows her the room where Roxy is, and she goes there and offers him the doll. When the orphanage is attacked by masked criminals, Othar and Leo escape through a passageway, and Leo tries to get to the doll factory. However, both of them end up at the doll factory, where Othar explains about the Foundation and that it is set up by the Magician to help the children so they don't have to grow up in the orphanage. R
