BiBatchConverter Server is a useful application that can be used on the Windows Server operating systems to help you batch convert files. 1) BiBatchConverter Server allows you to specify the directories that you want to monitor and view the content of files contained within the monitored directories. You can even set the tool to monitor the directories preferred on your computer on any given schedule. 2) Drag and drop documents and/or folders into the BiBatchConverter Server. 3) A further noteworthy feature is the content extractor, a function that allows you to retrieve text from image documents or PDF files as plain text, text with layout or with a custom font, position, and style. 4) Speaking of PDF, the program includes several advanced processing

---

features, including, but not limited to file description, encryption, password handling, compression, resampling, font embedding, etc. 5) Moreover, BiBatchConverter Server supports a plethora of file formats, particularly the ones that are commonly used in the office environment. Supported file formats include: JPG, PDF, BMP, PCX, GIF, PNG, DWG and a wide variety of TIFF formats. Program Features: 1. Batch conversion from the specified directories. 2. Automatic document conversion from the specified directories on any given schedule. 3. Drag and drop files over the BiBatchConverter Server. 4. Content extractor that can be used to retrieve text from image documents and PDF files. 5. Advanced processing features for PDF files, including: file description, encryption, password handling, compression, resampling, font embedding, etc. 6. Over 150 conversion configurations are available. 7. Advanced User Interface (GUI) that provides a better user experience. 8. User defined directory monitoring. 9. Export to BMP, GIF, JPG, PCX, PNG, PDF, DWG and TIFF file formats. 10. Print dialog box that enables you to specify the recipient. 11. Possibility to customize user interface. 12. A configurable interface. 13. Allows you to monitor more than 150 directories. 14. Includes 150 conversion configurations. 15. Ability to export files in BMP, GIF, JPG, PCX, PNG, PDF, DWG and TIFF formats. 16. You can choose to enable on screen tip function to help you better understand what
