Features of ARPG8R: 32 Step Sequence 24 user definable patterns MIDI Controlled arpeggiator 4 configurable multi-touch controllers Wave shape selection (1 preset included) ARPG8R Key Features: The embedded arpeggiator is very easy to use and to control. It is equipped with a 32-step sequence for quick and easy arpeggiation. There are 10 other user definable patterns within ARPG8R, each of them can be turned on/off via the Main Menu. Unique Features: 4 configurable multi-touch controllers are available. Wave shape selection is fully configurable and allows for a wide variety of sounds. It comes with a preset. 1.06 MB ZynAddSubFX - Delay ZynAddSubFX - Delay is a 32-step wavetable (or parametric) delay effect, combining a freeform delay with a field-reversible phase shift and feedback. The phase shift delay compares the original signal with an offset (feedback). The offset can be continuously applied or simply switched off. The 32-step wavetable provides an extremely powerful tool for shaping the delay and the pitch feedback. Many parameters can be continuously varied for a wide variety of interesting sounds. 1.38 MB ZynAddSubFX - Chorus ZynAddSubFX - Chorus is a stereo chorus effect. Depending on the set rate, from the master output the input signal is delayed by a set amount and modulated with a set modulation ratio. The modulated signal is mixed with the original signal, delayed by another set amount and fed back. The feedback ratio can be modulated in a similar way to obtain other complex effects. Features Unison and stereo processing 32-step wavetable Realtime parameter change Muteable Fast maximum delay 1.48 MB ZynAddSubFX - Chorus (OGL only)

Play Time: ~45 min Plot Synopsis: A review of Transformers: Age of Extinction! During the first summer after the events of Revenge of the Fallen, humans were attempting to find a solution to the dwindling supply of the synthetic oil Decepticon Jetfire was using to power Cybertron, and came up with the idea of using the planet's own life energy to power it. This planet, however, was unknown for its volatile and extreme weather conditions, which was too much for the humans to handle, resulting in the death of
