Filigree Screensaver

Filigree is a screensaver that displays a network of lines as they weave elaborate and chaotic patterns through space. It will mesmerize you and will keep you in your chair for hours on end. Filigree is neither computationally nor graphically intensive and should run smoothly on virtually any fairly recent computer. If you are experiencing slowdown or stuttering, try reducing the "Lines" or "Line Length" sliders or turning off the glow effect. You can also try my other screensavers: Direct and direct2D programming tutorial. Learn how to develop your first Win32 app. You will learn: -How to use Direct2D API -How to use Direct3D API -How to create a simple app using Direct2D and Direct3D -How to use multimedia for your app. Links: -Direct2D API: -Direct3D API: -Visual Studio 2010 (32/64) and Windows SDK (32/64) -Extension for Visual Studio 2010 Express What is Direct2D and where it fits in the world of Windows Graphics? Direct2D is a graphics API for programmatic access to hardware accelerated 2D graphics. It allows us to bypass Microsoft's Presentation Manager and DirectX interop on an application level, accessing the rendering API directly. Direct2D supports both 2D (2D rendering and composition) and Direct3D-like 3D. Learn more about Direct2D: Visit the Direct2D web site for documentation, tutorials, and a forum: This is a video tutorial that goes over creating a simple splash screen application using DirectX 11. The application works by utilizing the Direct2D API, which is built into Windows 7 and above. For Windows XP, version

Filigree Screensaver Product Key For Windows

Filigree displays a beautiful display of lines in space. Over 100 lines can be displayed in each animation cycle. The motions of the lines are totally uncontrolled; the lines can weave and tangle and even move to an imaginary point in space. Please report any bugs or feature requests to umail. The program is free for personal and non-commercial use but may not be redistributed without permission. # # # # Download Filigree: If you like Filigree, you can buy the source code directly from: This screensaver is distributed under the GNU General Public License (GPL). What's New In Filigree Screensaver?

Filigree is a screensaver that displays a network of lines as they weave elaborate and chaotic patterns through space. It will mesmerize you and will keep you in your chair for hours on end. Filigree is neither computationally nor graphically intensive and should run smoothly on virtually any fairly recent computer. If you are experiencing slowdown or stuttering, try reducing the "Lines" or "Line Length" sliders or turning off the glow effect. Requirements: ? OpenGL 1.1 or later ? 3D accelerated graphics card recommendedQ: JQuery drop down with multiple content I am trying to achieve a multiple drop down using jquery. Now it is working fine if only 1 value is selected. If i change the option to other values, previous drop down is not getting refreshed. Here is my code : No Yes Other No Yes Other The JQuery Code is as follow
\$('#dropDown1').change(function(){ var value = \$(this).val(); var content = \$(this).children('option:selected').text(); \$('#dropDown2').children().remove(); \$('#dropDown2').append("+content+"); }); \$('#dropDown2').change(function(){ var value = \$('#dropDown2').val(); var content = \$(this).children('option:selected').text(); \$('#dropDown1').children().remove(); \$('#dropDown1').append("+content+"); }); This code will refresh the previous dropdown, but if i change the selection to 2nd dropdown it will give the right results, but i want to avoid the same data in both the dropdown. Any help is much appreciated. A: if you want avoid the same data in both the dropdown
