I'm starting a company with best friends - xocode My best friend and I have been considering starting a company together for sometime. Now that we finally are looking to take action on it we are throwing around ideas. We both love our jobs (but we hate them at the same time). We want to combine our like minds and create a product (you know what I'm talking about) that no one else has, right? We want to make something that people have been asking for for ages. We want to make this a thing. Just, wondering if anyone else here has done something similar and had successful results, or if anyone has any advice on where to start? ===== jeffmould Why don't you start on HN? This is a place for discussing startups. /* * Ceph hash table * * Copyright (C) 2010-2013 Avere Systems, LLC. * All rights reserved. * * Written by Steve Frisch , * Ed Hartnett * */ #include "quorum.h" #include #include #include #include #include #include #include MODULE_DESCRIPTION("hash table for extended attributes keys"); MODULE_LICENSE("GPL"); static struct kmem_cache *hthash_cache; static int hthash_cmp(void *_a, void *_b) { return *(int *)_a - *(int *)_b; } static void hthash_free_cache(struct list_head *list) { struct hthash_node *hn, *tmp; list_for_each_entry
