What's New in Photoshop? Adobe Photoshop CC 2018 Beta 1 is the latest version of this enormously popular tool. Here is an overview of its new features.

Shape Auto-Enhance This new feature enables you to quickly improve the appearance of your shapes, rectangles and ellipses, using auto-enhancements generated from Adobe's new AI system. It was first previewed at IFA 2018. You can activate it as follows: In the top right hand corner of the Layer menu, look for the toggle symbol. Move it to the right.

Contextual Panel This new feature provides a new panel for navigating in the digital asset. It has key control actions for navigating and selecting objects in the image, such as the Crop tool, rotate, flip, grid and hand tools. It can also record, duplicate and undo key steps. It can also be expanded by selecting "More" from the menu. The new panel can be accessed by selecting the "Tools" tab in the top bar, and then selecting "Contextual Panel".

Color Intelligence This new feature automatically gives more accurate colors, based on the colors used in the image. You can access this

feature by selecting “Color” from the panel. However, this new feature is not available in Photoshop Elements. Hand-drawn animation This new feature creates sophisticated hand-drawn animation in a simple way. The new tool contains three customizable brushes and three customizable frame animations that can be applied to any object in the image. You can access it as follows: Select the “Tools” tab in the top bar, and then select “Extras”. You can then select “Hand-drawn animation”. Video filters Adobe added the Crop, Straighten, Distortion and Animation features to the Filter menu to make it more easy to edit videos. Fn Keys You can now access the basic operations of Photoshop from the keyboard, without using menus. These include zoom in and out, rotate, duplicate, move, crop, transform, resize, color, blur, burn, dodge, sharpen, sketch, distort, invert, perspective, straighten, affinity, texture, brightness, contrast, watermark, grayscale, perspective, and levels.
